Production Accuracy

Color

Design To Print uses the best technology to produce color to SWOP offset color gamut. "In Gamut" means colors can be reproduced in the SWOP CMYK color space range from 4-8. Design To Print holds to a higher standard and only accepts deviations for In Gamut color reproduction up to 5 deltaE or roughly 2-3% visual color deviation. "Out of Gamut" are colors that extend beyond the normal vibrancy beyond the normal SWOP CMYK color space (4-8). Certain colors are not possible to produce in normal CMYK print (i.e. Lime Green, Bright Orange). Design To Print again holds to a higher standard and will reproduce up to 30 deltaE or roughly 7% color deviation. These are above exceptional ranges and should instill confidence your job will be printed to near perfect color.

Critical Color Match

Critical Color Proofing is an optional service we provide, which will allow you to verify precise color accuracy on the substrate the file will be printed. There is a fee for this service as it is time intensive and a costly use of materials.

Sizing

Custom printing is an art form, especially when it comes to oversized printing. We do our very best to deliver the requested size on your order. There are many factors when printing at this grand scale, each step in the process of custom printing has its own tolerances and can add up in the end: the material shrinks/stretch, cutting, welding, sewing, etc. For that reason, we have an acceptable margin of error. All large format orders within >2% of overall size will be considered acceptable for delivery.

Fabric Sizing - Design To Print takes extreme care in sizing fabric for frames or framing systems. Below are guidelines, policies and procedures to ensure accurate sizing.

Fabric Frame Measuring

Frame sizing - When measuring frame dimensions (dims), outside edge to outside edge is the proper method for size matching compatible with Design To Print's sizing workflow.

Fabric Fitting/Sizing

Design To Print measures all fabric jobs for exact sizing before leaving the production facility.

SEG graphics that will be installed in frames/framing systems are given extra attention:

- Design To Print builds test fitting frames for each SEG project to ensure sizing. Our internal frame sizing is only as good as the measurements provided and is in no way a true substitution for actual frames/framing system the graphic will be placed in. The only true way to properly size for existing frames/framing systems is to provide actual frames/framing systems to Design To Print so our production team can finish SEG graphics and fit them directly to final frame/framing system. If you send the frames for fitting they must come as a complete set with a photo or diagram, and written assembly instructions. An hourly rate will be charged for assembly, any repairs or cleaning, and transportation of frames.

DESIGN TO PRINT

- If frame/framing system is not provided Design To Print cannot guarantee the graphic will fit precisely to the frame. We will only be responsible for matching the size provided by the customer. Any incorrect sizing or frame deviations/anomalies supplied to Design To Print for production are the sole responsibility of the customer.
- Design To Print strongly recommends the customer provides frames/framing systems to ensure proper fit and finish to your project.
- In house framing systems - Design To Print is a trusted print provider for the BeMatrix™, Aluvision, Agam, RexFrame, and Octonorm framing systems. We stock a large amount of frames to provide test fitting services. Using our test frames saves you time in collecting, palletizing, inventory, manpower for providing Design To Print with test fitting. Please provide wall/booth layouts and we will build your booth at Design To Print for fitting.
- Notching - Notching the fabric will ONLY be done on client provided frames. If proper framing cannot be provided Design To Print will not notch SEG beading. It will be the customers responsibility at time of installation. Customers may elect to hire an install team from Design To Print for “On Site Services”. **An hourly rate will be charged for travel, time and supplies.**
- Doors- Design To Print will properly cut and fit fabric ONLY on client supplied doors. Design To Print will NOT cut doors, or any special frame cut-in’s without client frames. If customer approves a “Blind Cut” without available frames, a cut will be matched to a provided CAD file on a CNC cutting machine. Design To Print WILL NOT be responsible for “blind cut” fitting. Customers may elect to hire a fabric team from Design To Print for “On Site Fitting”. **An hourly rate will be charged for travel, time and supplies.**
- Photo confirmation - All projects produced at Design To Print will take a final photo to confirm production accuracy of the project and attached to your online work order for viewing. If used correctly this can serve as customer approvals for finished projects, eliminating the need for a second setup for approval at customers facility.

**** If you need an exactly precise size or color match, please note this in your order, as additional charges will apply. ****

Artwork Files

Preparing files correctly can be just as important as a good design. Here at Design To Print™ we have provided step-by-step instructions for each of your favorite creation tools so we can ensure a high quality product. Please refer to our File Specifications in as much as Design To Print™ cannot process orders that do not meet our minimum file specs. Images may need to be enlarged or reduced and cropped approximately 1/8” to 1/4” to allow for bleed, 1” bleed for fabric. The preferred formats are listed below. Other formats are also accepted:

- .PDF -Adobe Acrobat (Press Ready) - Preferred!
- .JPEG, .JPG
- .TIF, TIFF -Tagged Image Format

All pixel-based images (pictures) must be generated at standard minimum dpi (depending on which product you are preparing for) at full printing size in CMYK color space

Our prepress department checks all submitted artwork files before printing, but you are still 100% responsible for the accuracy of your print-ready artwork files, and we encourage you to proof all files carefully before submitting to Design To Print. **Additional charges will apply for fixing, editing, changes,**

corrections or any other work that may be required on customers supplied artwork and files. By submitting the artwork to Design To Print, you certify that you have the right to use the image(s) in your artwork files. DO NOT send any "one-of-kind", prints or artwork. Although we take every precaution to safeguard your materials, we are NOT responsible for loss or damage of images or artwork.

No Liability for Errors

The customer is responsible for reviewing their files and correcting any issues prior to approving the proof/ order. DesignToPrint is not liable for errors in the final product caused by any of the following reasons:

- Spelling, punctuation and grammatical errors
- Low resolution or low quality graphics and images
- Damaged fonts
- Transparency issues

- Damage to products after delivery to user

File Changes

Once a job has been sent to print or production, the process is final and changes cannot be made. After the job is completed any claims made will not be held against Design To Print.

Proofing

Confirm all SPELLING, SIZE, AND DESIGN are CORRECT. Once you approve the proof(s), you are stating that the proof(s) are ready to print and cannot be revised or reprinted without additional costs.

Please be mindful that your turnaround does not begin until we receive your written / digital approval. If shipping is needed, there will be additional transit time depending on the designated location. MAKE SURE YOU CAN GET YOUR ORDER ON TIME CHOOSING YOUR SHIPPING METHOD. We recommend adding 1 extra day to prevent any delay caused by UPS/ FedEx. Design To Print reserves the right to modify the shipping option selected by you and retain any related difference in charges between shipping options, where DesignToPrint completes the job prior to the turn-around time selected by you and there will be no adverse material impact on the target arrival date. Shipping prices are calculated using the FedEx shipping calculator. You can determine your type of shipping (i.e., Ground, Freight, Second Day or Over Night) on our sales cart page. Oversize printing may have no shipping method other than freight. Our basic shipping method is FedEx Ground.

Archiving, Backup & Saving of Artwork & Files

It is the customer's responsibility to Save, Archive or Backup a copy of the original Artwork or files. Design To Print is not responsible for loss or damage to media, artwork & files supplied by the customer. Please save a copy or backup your artwork & files in a safe place prior to submitting it to us

Rescheduling fee's

Each project is scheduled according to size of the job, press speed and availability, and duration / quantity of finishing options. If the desired completion date is before the scheduled completion date the customer may have the option to reschedule the production queue for an earlier finish date. **A rescheduling fee will be added.**

Rights to Refuse a Job

Under these Terms & Conditions, you agree that you will NOT upload any artwork files consisting of the following material: offensive, indecent or improper material, nudity, any material that could give rise to any civil or criminal liability under applicable law; and any material that could infringe rights of privacy, publicity, copyrights or other intellectual property rights without the permission of the owner of these rights and the persons who are shown in the material if applicable. We will refuse an order based on foregoing reasons or for any other reason, which in our opinion may be illegal in nature or an infringement on the rights of any third party. You accept full legal liability for the content of material processed and printed on your behalf and under your instructions. We reserve the right to refuse an order without disclosing a reason.

Rights to Revise or change this Agreement

DesignToPrint reserves the right to modify, change, add, remove, update, revise this Agreement (Terms, Conditions and Policies) , at any time. All revisions and changes will be effective immediately.

Custom Order Quote Accuracy

Quotations/Proposals are based on the accuracy of the specifications provided by the customer. DesignToPrint can re-quote a job at the time of submission if the said specifications have changed or do not conform to information on the original quote/proposal. Quotes are only valid for 30 days, then rendered invalid.
